

The Applied Research Division of Cognitive and Psychological Sciences, lead by Prof Gabriella Pravettoni, at the European Institute of Oncology IEO of Milano (Italy) is recruiting a postdoctoral researcher to work in the Horizon project “An Interdisciplinary Approach for the Management of the Elderly Multimorbid Patient with Breast Cancer Therapy Induced Cardiac Toxicity” (CardioCare). The aim of the project is to improve the monitoring, treatment and overall care provided to breast cancer patients above 65 years of age who are at higher risk of cardiac toxicity from cancer therapy.

We are looking for a candidate with a strong background in cognitive psychology and psycho-oncology and good experience in managing International research projects. Fluent English is also required.

The recruited Postdoctoral fellow will be integrated in the lab of Prof. Pravettoni at the IEO based in Milan (IT), which provides an excellent environment at the interface between different divisions.

The contract will be initially for three years, with possible extensions until the end of the project.

Le persone interessate, ambosessi (L. 903/77), possono inviare il proprio CV, corredato di autorizzazione al trattamento dei dati personali ai sensi dell'**art. 13 del D. Lgs. 196/2003 e all'art. 13 GDPR 679/16** a: servizio.selezione@ieo.it citando il rif: 2021SEL39.
